

God's Prophetic Word Is Amazing!

Application Thoughts From Daniel 9

Permission to copy and share this *Good Free Stuff* handout is granted.

Please begin by reading Daniel 9.

Illustration:

Most have discerned election fraud in the 2020 election. Many have well evidenced this fact. The NEED today is to bring correction to this problem. Mike Lindell (the *My Pillow* guy) presented an “election summit” in August of this year. During this summit, he and his team unleashed a plan whereby our election in November, 2024 could be made much more secure. In other words, Mike has taken the next CRUCIAL step – going FROM knowing (discerning and evidencing) there’s been election fraud TO offering *action-step* corrections to this evil with the hope it won’t happen again. Last month (March) his legal team even presented their common-sense concerns & correction ideas before the Supreme Court. [Truth-based actions matter!](#)

Many, today, through our Endurance Ministries’ (EMs’) ministry efforts in part, now better discern the degree of end-time darkness in present culture. We at EM, 1. offer biblical truths (that is, by God’s grace, we have discernment) on this matter (citing both thematic & chronological truths) AND, 2. cite cultural expressions of these warnings in Scripture – i.e., evidence. The NEED at this juncture is to now communicate messages bringing practical help as to how folks in Christ can respond to these dangerous evils. In other words, we need to take further steps in going FROM knowing/discerning the end-time Bible data and the evidencing of these very warnings (seen within culture today) TO the offering of **corrective** Counsel in response to cultural evils. We have recently taken one small step by clearly articulating what we as USA citizens must now DO: All of us must humble ourselves, pray and turn from our wicked ways. This means different degrees of corrective repentance as ALL of us need to take further steps toward righteous living. Let’s consider Daniel’s example in Daniel chapter 9. He includes himself in the many “WEs” in the chapter. Christians and non-Christians alike, please prayerfully consider our *need of the hour* [appeal](#). (found posted on our “Devotional Archive Blog Page” – DB1A: January, 2024 entry titled *America’s NEED* – at www.truthfoundations.org)

EM has sought to bring like/similar appeal. By God’s kind mercy and grace, we state there’s a problem but then go on to offer *next-step* counsel. Examples include discerning false teachings by knowing the Word ; what’s next on the biblical end-time calendar ; Handout 100 – why we should NOT take the mark once it’s offered (and then required), ever! ; live in strong dissent of the movement of the spirit of antichrist – see our hard-copy “opposition” handout on this pertinent matter ; etc.

So, given the Bible information on this *end-of-days* concern and where culture is today, what else can we do to help? It really is now up to each of us to personally act upon the Truth-based materials we’ve shared the past two-and-a-half decades. We so can succeed in living fruitfully in Christ today by heeding God’s good Counsel, some of which is highlighted [here](#). (see Gal. 5 & John 15) One important, closing thought ... Please recall: It is *the love of Christ Jesus* that compels us to serve as we do. We, again: **by God’s grace**, genuinely care about the eternal states of God’s special creation: mankind.
