

On The [בראשית] Berisheet Passover Prophecy

CB2A - February, 2022

Have you heard about this prophecy, one coming from some Pre-Tribulation Rapture advocates?

If you'd like to read Craig Lovik's book (which continues to go through edit changes) or if you'd like to view their video presentation (1.59 million views at the time of the publishing of this blog), use the links below for more information:

<https://youtu.be/PtATSQx3cjl> or <https://www.youtube.com/watch?v=PtATSQx3cjl>

Like the "Blood Moon" prophecies of the last decade (which were released prior to the actual astronomical blood-moon events), the Berisheet End-Times Passover Prophecy [book released in 2018 ; YouTube video posted in November of the same year] was released prior to the closing events of the end of days. This includes the event of the Pre-Trib Rapture (as the Berisheet Passover Prophecy – BPP for short – advocates claim).

According to those who hold the BPP, the Rapture event has not yet happened (as of the writing of this blog). The creators of this end time interpretation go on to make this claim: The Rapture of the Church will take place before the beginning of 2024. That's less than 2 years from today!

Here's the claim in their own words (written in the presentation):

"The Departure of the Church – could happen at any time and no later than 2023."

"The Church of Christ will not exist on the earth after the year 2023."

Note this: The BPP includes the claims (of the quotes above) in the prophecy (#4 of 7 prophetic beginnings) while also making other future claims. At this juncture, a question is in order:

How is it we are able to discern (even today, without waiting for the beginning of 2024) the Berisheet Passover prophecy may be a false prophecy?

Before answering this question, it's important to reiterate one fact hinted at above:

The Pre-Trib Rapture prediction [before 2024 – "We know that the departure of the Church could happen at any time ... we do know that the window of Grace will slam shut no later than 2023 A.D."] within the BPP is a major part of the prophecy.

Okay, back to our concern through the posing of a question ...

How do we know (today) this Berisheet Passover prophecy is, most likely, incorrect?

Let's revisit our Truth Foundations' commitment: The Word is our authority for faith and practice.

We need to be sure the claims of contemporary prophets are indeed what they claim: Bible-based appeals, not based on pictures and numbers of letters contained in the first word of Genesis 1.

Is the BPP based on actual Scripture OR is it based on letter interpretations of the first word in the Hebrew Bible: “Berisheet” ; Hebrew: בְּרֵאשִׁית (literal word translation: “in beginning”) ?

As many secularists ask us (global inhabitants) to believe the wild claims (i.e., myths) of holistic evolution (from the cosmic egg to the present – including Neo-Darwinian macro evolutionary changes), so too do the creators of this end-time prophecy ask readers to take huge faith leaps as to how the first word in the Bible (“in beginning”) means what they say it means – end-time prophecy. They actually claim this one word speaks to 7 prophetic beginnings – three of which have already happened. The author and supporters of this prophecy ask us to believe their many assumptions about the meanings of the letters, all the while touting their view is a literal approach to understanding the Hebrew word, בְּרֵאשִׁית . They ask us to trust their many presuppositions. No my friends, this word – בְּרֵאשִׁית – has nothing to offer by way of literal, end-time Bible prophecy.

We have one other fair, important concern ...

Although the Pre-Trib Rapture event is a main part the Berisheet prophecy, it’s accurate to make this factual observation: There is NO evidence offered (in the actual “Berisheet” word) which warrants the Rapture event! Check it out. NO letters nor sub words within Berisheet nor Hebrew letter numerology nor pictographs speak to the Rapture. This is both sad and telling.

Sad in that a main tenet of the prophecy - the Pre-Trib Rapture - isn’t even in the word, symbols or letters which are the basis or grounds for the prophecy! Telling in that IF this is the best proof for the Pre-Trib Rapture that can be offered by Pre-Trib advocates, it is even more clear this view is bankrupt, biblically speaking. (Please see our other documents justifying this appeal.)

And yet, the Doodly powered presentation is bold to include this claim: “The Berisheet prophecy is the most amazing warning you will ever hear in this life time.” From our perspective, it’s a surprise they can even get away with making a claim like this given the lack of clear, Word-based support.

The BPP YouTube video makes these (verbal) concluding appeals:

“Once assembled, the Berisheet Passover Prophecy contains the forecast that the Church of Christ will not exist on the earth after the year 2023.” ...

“This concludes the translation of the first prophecy revealed in the Bible – revealed but hidden in the beginning so that you might be warned at the appointed time that Christ is coming to collect His Church. Will you be ready?”

May we mark the potential false teachers among us, for the sake of the Gospel, our personal protection, discipleship of others and ultimately for the purpose of bringing our יהוה God glory and praise. Please visit www.EnduranceMinistries.online for more information.
